

Career Workshop Facilitation

Your organization has goals to achieve. Skills to develop. Teams to build. Strengths to leverage. We know that the right approach is needed to transfer knowledge from the classroom to the work room. It's not easy yet we're up to the challenge.

Do you have the right people in place to effectively facilitate and deliver the material to meet these needs in a fun, engaging, and interactive way?

We do. We facilitate career development workshops and team meetings designed to produce results while having fun in the process.

Do you have a specific way you want the material delivered?

We can customize it. From virtual to live, 30 minutes to full days. We've done it.

Do you know what you need?

If you do, let's do it! If not, we can help you determine what's needed, develop and deliver it!

Do you want to include a specific assessment like the Myers Briggs Type Indicator, DISC, Birkman?

We know them. We've used them. We're certified in them.

Do you need the skills to be transferrable to the workplace and positively impact the behaviors of the participants?

We will make sure of it by working with you to determine what behaviors and actions you want to see taken back.

Examples of course topics include:

- Your Personality and Your Career Success – Leveraging Your Strengths
- Approach Like a Coach – Developing Your Coaching Skills
- Negotiating Skills for Success
- Delivering Effective Feedback
- Building a Team that's Positive and Productive
- Developing Your Personal Brand
- Behavioral Interviewing Training for Recruiters

"Your facilitator was terrific, knowledgeable, personable and engaging. She did a great job helping us learn the material." This was one of the highlights of our meeting!"
